

R-CLOUD

Reinvent your business with the power of the cloud

REINVENT YOUR BUSINESS WITH THE POWER OF THE CLOUD

Our R-Cloud services, labelled "Made in Luxembourg", provide a solution to businesses' **growing need for digitalization**, which are key to **remain competitive** in a rapidly changing market. They also help with the need for business **agility** to focus on business and quickly access the right technological tools. R-Cloud gives you access to your data, business software, and resources, **anywhere and anytime!**

With a simple **Internet connection**, you can benefit from the many advantages of R-Cloud: **on-demand** resources, service **adjustable** to your needs, **multiplatform** (computer, phone, mobile, PDA, etc.), **flexibility**, high **availability**, not to mention the **protection** and security of your data.

Stay focused on your core business with our R-Cloud services and don't worry about the technical aspect, managed by our teams!

THE DIFFERENT TYPES OF CLOUD

IaaS INFRASTRUCTURE AS A SERVICE Making IT resources available in a virtualized environment	PaaS PLATFORM AS A SERVICE Expand your applications or services without wasting time with setting up and maintaining the IT platform	SaaS SOFTWARE AS A SERVICE All your business software accessible from an Internet connection

- Legal
- Medical

WHY CHOOSE OUR R-CLOUD SERVICES?

Our R-Cloud services, validated by the Financial Sector Supervisory Commission (**CSSF**), are suitable for all, from regulated companies to businesses of all sizes, thanks to their **modularity**. The servers and stored data are housed in **Luxembourg Tier IV data centres**, offering a complete redundancy of the service (replication on demand), thus ensuring **compliance** with the European Data Protection Regulation (**GDPR**). Our services, based on BGP (Border Gateway Protocol) technology, provide you with **scalability**, and **secure** connections to servers.

Our R-Cloud services are **THE answer to your security, modularity, and flexibility needs** to remain competitive.
